

MERVIN NAGUIO

CAREER SUMMARY

Full Stack Web Developer with experience developing, maintaining, and optimizing web-based applications, including large-scale school management systems. Skilled in PHP, Laravel, MySQL, JavaScript, jQuery, AJAX, Bootstrap, and REST-style APIs, with hands-on experience across frontend and backend development, database management, troubleshooting, and system performance improvements. Experienced in client support, client meetings, user assistance, and requirements coordination, ensuring technical solutions align with real user and business needs. Strong background in IT support and user management, with experience using AI tools to improve development efficiency, debugging, and code quality. Passionate about building scalable, efficient, and user-focused applications.
